1D (PSA 103): Officer S. Andelman reported the following: Over the last 30 days, there were 34 robberies, increased by 30%; robberies in various sectors: from a macro point of view, robberies increased; from a micro point of view, robberies decreased from this same period last year; there have been 11 arrests, 21 open, 2 suspended.

[Commissioner Alex Marriott arrives]

3D (PSA 308): Lt. J. P. Ross reported the following: The PSA recently took over Sector 2 in the 5D area; since then, a downtick in shootings; two drug arrests, several robbery arrests and two gun arrests; vehicle break-in arrests.

Commissioner Padro asked about 1300 block of 8th Street, NW. Sgt. Terrestre responded the Department has been dedicating resources to this area – foot beats and bikes are working there. He implemented a bike patrol at 8th and O to include the 1300 block of 8th Street. One thing is that officers had not been getting out of their vehicles – now they are doing this; the police presence there will make a big difference. Officer engagement is important. Commissioner Wiggins asked whether this same thing can be implemented at 7th and H Streets, NW. Questions were raised as to where the border is for the Fall Crime Initiative. Commissioner Nigro again raised her concerns about the 200 block of N Street, Kirby Street, Morgan Street, and New York Avenue where there are drugs, alcohol, defecation and urination. She was informed that the Fall Crime Initiative is for violent crime areas.

5D (PSA 503) – No officer was present.

IV. MQW, LLC C/O QUADRANGLE DEVELOPMENT CORPORATION, SQUARE 560, LOT 28, 811 3RD STREET, NW: REQUEST FOR SUPPORT FOR A PUBLIC SPACE PERMIT [6E07]

Troy Balkema stated he met with the Transportation Advisory Committee on October 29, 2019 and is seeking a letter of support to close the east side of 3rd Street, NW. The Committee approved the request on the following conditions: **(1)** the west side of the sidewalk be ADA compliant; **(2)** the condition of the east sidewalk is better than it is today; **(3)** ADA ramps and ladder style crosswalks at both H and K Streets, NW. Commissioner Padro stated that 3rd and I Streets should be ladder style crosswalks.

The developer is working with DDOT to put a crosswalk over I Street just north of the crosswalk at 3rd street, NW.

MOTION: Commissioner Marriott moved and Commissioner Brown seconded that ANC 6E **support** the closing of the sidewalk over 3rd Street, NW between I and H Streets with the following conditions: **(1)** ADA compliant curb ramps and high visibility ladder-style crosswalks are installed across 3rd Street at H Street and I Street, NW; **(2)** at the end of the construction project, the sidewalks on the east side of 3rd Street be restored to a state of good repair; **(3)** confirmation that the sidewalks on the west side of 3rd Street are ADA compliant and fully accessible. Further, that said support be communicated in writing to DDOT and the Public Space Committee. The Motion **passed** unanimously, 7 yeas (Commissioners Marriott, Padro, Wiggins, Brown, Rogers, Nigro, Judd] – 0 nays – 0 abstentions.

V. PRESENTATION BY IBF DEVELOPMENT OF TRAFFIC CONTROL PLAN FOR LIBERTY PLACE APARTMENTS AT 901 3RD STREET, NW [6E07]

Rob Richardson of IBF Development stated they submitted a traffic control plan to DDOT and DDOT asked that they seek ANC 6E support for their traffic control plan which includes closing the sidewalk on a lightly traveled street in front of their building during construction. They are at I and K, but there is one section that will need to be expanded to make it ADA compatible. Commissioner Marriott asked whether the developer contacted the Second Baptist Church.

MOTION: Commissioner Marriott moved and Commissioner Padro seconded that ANC 6E **support** the closing of the sidewalk on the east side of 3rd Street, NW between I and K Streets, NW and that said support be communicated in writing to DDOT and the Public Space Committee with the following conditions: **(1)** ADA compliant curb ramps and high visibility ladder-style crosswalks are installed across 3rd Street at H Street and I Street, NW; **(2)** at the end of the construction project, the sidewalks on the east side of 3rd Street be restored to a state of good repair; **(3)** confirmation that the sidewalks on the west side of 3rd Street are ADA compliant and fully accessible. The Motion **passed** unanimously, 7 yeas (Commissioners Marriott, Padro, Wiggins, Brown, Rogers, Nigro, Judd] – 0 nays – 0 abstentions.

VI. RESOLUTION IN SUPPORT OF LONG-TERM TRAFFIC CALMING AND STREETScape IMPROVEMENTS ALONG THE 1700 BLOCK OF 6TH STREET, THE 500 BLOCK OF S STREET, AND THE 400 BLOCK OF S STREET

Commissioner Padro stated that back in the 1960s, the site had been truncated in order to facilitate plans for a freeway that never came to fruition. A number of blocks had their sidewalks truncated in order to facilitate commuters, but they were never restored. The residents want the streets narrower and the sidewalks wider. The sidewalks are not ADA compliant, with streetlight poles in the middle of the sidewalk. They also want the tree boxes back that were there previously. ANC 6E's Transportation Advisory Committee recommended temporary east-west four-way stop signs at 5th and S until streetscape changes can be effected.

MOTION: Commissioner Padro moved and Commissioner Marriott seconded that ANC 6E **support** the long-term traffic calming and streetscape improvements along the 1700 block of 6th Street, the 550 block of S Street, and the 400 block of S Street, including sidewalk widening, the addition of trees and replacement of trees for these blocks, high visibility ladder-style crosswalks in these blocks, ADA compliant sidewalks and curb ramps, and that said support be communicated in writing to DDOT and the Public Space Committee. The Motion **passed**, 6 yeas (Commissioners Marriott, Padro, Wiggins, Brown, Rogers, Judd] – 0 nays – 1 abstention (Commissioner Nigro).

**VII. 55 H STREET, NW (GONZAGA HIGH SCHOOL/GEORGETOWN UNIVERSITY):
REQUEST FOR SUPPORT FOR VOLUNTARY DESIGN REVIEW FOR THE
UNIVERSITY'S PLANNED CONSTRUCTION OF A NEW STUDENT-FOCUSED
RESIDENTIAL BUILDING [6E07]**

Chris Murphy of Georgetown University stated they are scheduled to present to the Zoning Committee in December. They are seeking ANC support for the design concept of their proposed new construction – a student housing building – so that the plans can be submitted in their BZA application. It will be an 11-story residence hall for Georgetown graduate students; there will be 158 apartment units and 473 students. There will be approximately 2,000 square feet of retail space on the first floor. It will be a sustainable building which will be totally electric. LEEDS Certification Gold at a minimum, but striving for Platinum. This block is zoned Commercial, meaning that anybody who lives here will not be able to get an RPP permit. All residents of this development will be bound by a Georgetown internal agreement which stipulates that they will NOT be allowed to have automobiles. As a result, the developer is going to be seeking parking relief. The development will entail bicycle parking to accommodate 116 bicycles.

The Zoning Committee met and passed a motion to recommend that ANC 6E support the request for concept approval and that it be approved with a stipulation that the parking issue be addressed offering other viable parking at other close-by parking lot/campus parking or remote lots, and to make a provision for a bicycle share opportunity.

Commissioner Padro – **(1)** congratulated the developer on choosing Robert A. M. Stern Architects, LLP; **(2)** applauded that it will be a sustainable building, being totally electric; **(3)** stated that he had grave concerns that there will be no parking and what may happen with this building in the future, i.e., if it is sold to a condominium, there would be no residential parking.

MOTION: Commissioner Marriott moved and Commissioner Judd seconded that ANC 6E **support** the design concept for 55 H Street, NW, waive the parking requirements, and communicate that support to the Zoning Commission with the following conditions: **(1)** look into expanding the Capital Bike Share at G Street or installing one closer to the building, and **(2)** work with DDOT to have a designated pickup/drop off zone near the building; **(3)** in the extreme example, have an agreement in place with the Law School to allow students to park at other nearby parking establishments. The Motion **passed** unanimously, 7 yeas (Commissioners Marriott, Padro, Wiggins, Brown, Rogers, Nigro, Judd] – 0 nays – 0 abstentions.

Commissioner Padro stated that this establishment has had a number of issues in the past. The previous owners sold the establishment to new owners who did not satisfy the reporting needs of ABRA and a number of fines were assessed. Those records have been brought up to date. Subsequently that license was cancelled and a new license approved by ANC 6E with a Settlement Agreement. There have been no violations, except for a violation related to use as an Airbnb on the upper stories where renters were smoking and drinking in front of the restaurant, which is the restaurant's responsibility according to ABRA. The establishment has been working with the building owner to try to curtail this activity, but he does believe they are making a good faith effort to be in full compliance with ABRA regulations.

IX. RESOLUTION REGARDING BANNEKER HIGH SCHOOL ISSUES (DOG PARK, SKATE PARK, TRACK/FOOTBALL FIELD, TRAFFIC STUDY, PARKING) [6E 01]

Commissioner Padro stated the new Banneker High School is scheduled to have an outdoor athletic facility that will consume most of the Shaw Recreation Center and there are issues related to the Shaw Dog Park and Shaw Skate Park. Of particular concern is the fact that the Chancellor has unilaterally decided that the school should have a football field even though they do not have a football program. Secondly, the school is almost 80% female. A proposal was put forward by the athletic staff at the school that would result in a smaller playing field that would be surrounded by a track.

Christopher Verner, DC State Athletic Association (DCSAA) Coach and Math teacher at the Duke Ellington School of the Arts, stated that a 200 meter track that is half the size of a 400 meter track would be put in for the women on which to practice.

Commissioner Padro stated that if one looks at the landscape design, the Shaw Dog Park has been bifurcated into two sections and the Shaw Skate Park has been reoriented. Despite the fact that ANC 6E has asked for the exact measurements of the original facility as well as the proposed size of the new facility, DCPS and their team have refused to provide the measurements, so we are extremely skeptical about their claims that there will be no net loss in the square footage of the facility. One of the things promised to us is that the facilities would not be negatively impacted by the Banneker construction, so it is important for the Commission to press the issue that we have not received the information that has been requested and that we want to insure that there is no net loss of square footage on those two very important community amenities. Furthermore, on several occasions, the community and the school and improvement team have requested a copy of the transportation plan for the new school with an analysis of the parking needs. There is no parking garage that is planned for this location. This is the most significant concern on the part of the community.

MOTION: Commissioner Padro moved and Commissioner Marriott seconded that ANC 6E write to the DCPS Chancellor, the Mayor, and the Deputy Mayor for Education expressing concerns about the decision to construct a football field that does not provide for a track for the track athletic program at Banneker and urge, instead, that a track be constructed with space for additional athletic practice, as has been proposed by the Banneker Athletic Team, that the transportation plans both for construction and operations of the school be provided to this Commission and to the public so that they can be analyzed and we can provide feedback as to the plans, that the decision not to construct a garage for Banneker, despite the fact that the old Shaw Junior High School had a garage which was intended to reduce the negative impact on residential parking in the area, that the decision not to build the parking garage be reconsidered because of the need to prevent to the greatest extent possible the negative impact on the community, and lastly that the current and proposed dimensions in square feet for both the Shaw Dog Park and Shaw Skate Park be provided to this Commission and to the community to validate the claim that the new facilities do not represent a reduction in services being provided to the community. The Motion **passed** unanimously, 7 yeas (Commissioners Marriott, Padro, Wiggins, Brown, Rogers, Nigro, Judd] – 0 nays – 0 abstentions.

X. 900 BLOCKS OF R STREET AND RHODE ISLAND AVENUE, NW: REQUEST FOR SUPPORT FOR CRANE OVER SWING FOR BANNEKER HIGH SCHOOL CONSTRUCTION [6E01]

MCN Build, General Contractor, is seeking ANC 6E support to erect a tower crane on the site. (1) Because of the proximity of the building to public space, efforts were made logistically to try to eliminate traffic on surrounding streets, so MGN is working to develop internal construction access roads that will keep trucks out of the neighborhood as much as possible; and (2) to keep cranes out of public space. Per the diagram showing the crane over swing, the site is wider east to west than to the south, so a single crane is needed that can reach the entire length of the building. The boom length of the crane will have over swing of some of the buildings to the north side of R Street. There will not actually be any loads. MGN

has received the approval of the FAA already and right now they are submitting all the final details to DCRA. Commissioner Padro asked whether they have communicated with property owners in the area.

MOTION: Commissioner Padro moved and Commissioner Marriott seconded that ANC 6E **support** the applications necessary for the installation and operation of the tower crane for the construction of the new Banneker High School and that said support be communicated in writing to DCRA. The Motion **passed** unanimously, 7 yeas (Commissioners Marriott, Padro, Wiggins, Brown, Rogers, Nigro, Judd) – 0 nays – 0 abstentions.
